

INSTALLING BEAT THANG VIRTUAL ON YOUR MAC (INTEL-BASED MACS ONLY; WILL NOT RUN ON POWER PC)

1. Plug your Beat Thang Virtual USB thumb drive into an available USB port.
2. A virtual drive icon labeled "BTV" will appear on your desktop. Double click it.
3. The contents will appear in the finder window. There you will see a file named "MacVirtualBeatThang-1.0.3.mpkg". This is your installer. Double click it and follow the instructions to complete the installation. After installing, **RESTART YOUR MAC**.
4. Locate "Virtual Beat Thang" in your applications folder and run it. You have a 7 day trial so you can get going immediately. After that, you will be required to register Virtual in order to keep using it. Registration is fairly easy, so don't be intimidated by the instructions below. It should only take 5-10 min.

BEFORE RUNNING VIRTUAL BEAT THANG

Make sure your audio I/O is correct in System Settings; here's how:

1. Open Beat Thang Virtual.
2. Click the SYSTEM button. It is located in the middle right of the interface, between EXPORT and DATA.
3. Change the Audio Input and Audio Output to "Built-In" (or any other available driver if you have another audio interface that you want to use).
4. Make sure your MIDI input matches your MIDI controller (if you're using one)
5. Click CLOSE.

Make sure your CORE AUDIO is set to 44.100 HZ; this is how you check:

1. Go to your APPLICATIONS folder and inside that will be the UTILITIES folder. There you should see the "AUDIO MIDI SETUP".
2. Double click that and look at "Audio input" and "Audio output".
3. If the selection is set to 48 Hz, then change it to 44.100 Hz.
4. If you are not using an audio interface, then your default settings should be:
Input: Built-in Microphone
Default Output: Built-in Output
System Output: Built-in Output

AUTHORIZING YOUR VIRTUAL BEAT THANG

1. Once you run Beat Thang Virtual, the **Try** or **Buy** buttons pop up. Click "**Buy**".
2. The dialog will ask for your customer info. **MAKE SURE YOU ENTER THE SAME NAME YOU USED TO PURCHASE THE PRODUCT**, this is how we know we are activating the right person.
3. After you fill out your info click **NEXT**. You will then see "**SEND LICENSE REQUEST**". Click it.
4. You will now be asked where you want to save the license request. (Selecting Desktop is usually easiest). An "ILR" file will be saved in the location that you selected.
5. Send an Email to Virtual@beatkangz.com with that ILR file attached. This is your license request.
6. We will send you a license file. Drag file to desktop and double click it. You're good to go!!!

If you have a problem then we are here to help you.
